6.8 **List of Symbols, Abbreviations and Nomenclature**- One and a half spacing should be adopted for typing the matter under this head. Standard symbols, abbreviations etc. should be used.

6.9 **Chapters -** The chapters may be broadly divided into 3 parts (i) Introductory chapter, (ii) Chapters developing the main theme of the project work (iii) and Conclusion.

- ❖ The main theme may be divided into several chapters and each chapter may be further divided into several divisions and sub-divisions.
- ❖ Each chapter should be given an appropriate title.
- ❖ Tables and figures in a chapter should be placed in the immediate vicinity of the reference where they are cited.
- ❖ Footnotes should be used sparingly. They should be typed single space and placed directly underneath in the very same page, which refers to the material they annotate.

6.10 **Appendices** - Appendices are provided to give supplementary information, which if included in the main text may serve as a distraction and cloud the central theme under discussion.

- ❖ Appendices should be numbered using Arabic numerals, e.g. Appendix-1, Appendix-2, etc.
- ❖ Appendices, Tables and References appearing in Appendices should be numbered and referred to at appropriate places just as in the case of chapters.
- ❖ Appendices shall carry the title of the work reported and the same title shall be made in the contents page also.

- ❖ The list of publications made by students during the period of research, shall be brought in the Appendix titled, as List of Publications and the same shall be reported in the contents. The author(s) can refer the publications mentioned in the Appendix, in the text of the Report, by mentioning the author(s) name followed by Appendix number and the year of publication, in brackets.

6.11 List of References – Any works of other researchers, if used either directly or indirectly, should be indicated at appropriate places in the report. The citation may assume any one of the following forms.

The authors' publications during the period of research should not be included in the references and can be separately mentioned as in 6.10.

Examples of citation

i. An improved algorithm has been adopted in literature (Tsychiya1980)
ii. Jankins and Walts (1968) have dealt at length this principle.
iii. The problem of mechanical manipulators has been studied by Shin et al (1984) and certain limitations of the method used, has been pointed out by Shin et al (1984a).

The listing of references should be typed 2 spaces below the heading "REFERENCES" in alphabetical order in single spacing left – justified. The reference material should be listed in the alphabetical order of the first author. The name of the author/authors should be immediately followed by the year and other details. A typical illustrative list given below relates to the citation example quoted above.

6.12 Tables and Figures - By the word Table, is meant tabulated numerical data in the body of the project report as well as in the appendices. All other non-verbal material used in the body of the project report and appendices such as charts, graphs, maps, photographs and diagrams may be designated as figures.

- ❖ A table or figure including caption should be accommodated within the prescribed margin limits and should appear on the page, where the first reference is made as far as possible.
- ❖ Tables and figures on half page or less in length may appear on the same page along with the text. However, they should be separated from the text both above and below by double spacing.
- ❖ Two or more small tables or figures may be grouped if necessary in a single page.
- ❖ Photographs if any, should be included as color print only. More than one photograph can be included in a page.
- ❖ Samples of Fabric, Leather, etc., if absolutely necessary may be attached evenly in a page and fixed / pasted suitably and should be placed in Appendix only.

The caption of figure should follow sentence case, center aligned and placed below the figure. The caption of table should be at the top of the table, left aligned and placed above the table.

7. TYPING INSTRUCTIONS

7.1 General

This section includes additional information for final typing of the project report. Some information given earlier under 'Manuscript preparation' shall also be referred. The impressions on the typed/duplicated/printed copies should be black in colour. Corrections, interlineations and crossing out of letters or words will not be permitted in any of the copies of the project report intended for submission. A sub-heading at the bottom of a page must have at least two full lines below it or else it should be carried over to the next page. The last word of any page should not be split using a hyphen. One and a half spacing should be used for typing the general text. The general text shall be typed in Font style Times New Roman and Font size 13.

Single spacing should be used for typing:

(i) Long Tables
(ii) Long quotations
(iii) Footnotes
(iv) Multilane captions
(v) References

All quotations exceeding one line should be typed in an indented space, the indentation being 15mm from either margin.

7.2 Chapters

The format for typing chapter headings, division headings and sub division headings shall be same as given in Table of Contents.

The word CHAPTER without punctuation should be centred 50mm down from the top of the page. Two spaces below, the title of the chapter should be typed centrally in capital letters. The text should commence 4 spaces below this title, the first letter of the text starting 20mm, inside from the left hand margin.

The division and sub-division captions along with their numberings should be left-justified. The captions should start at 20mm from left margin. The typed material directly below division or sub-division heading should commence 2 spaces below it and should be offset 20mm from the left hand margin. Within a division or sub-division paragraphs are permitted. The paragraph should commence 3 spaces below the last line of the preceding paragraph or caption, the first letter in the paragraph being offset from the left hand margin by 20mm.

8. NUMBERING INSTRUCTIONS

8.1 Page Numbering

All pages numbers (whether it be in Roman or Arabic numbers) should be typed without punctuation on the upper right hand corner 20mm from top with the last digit in line with the right hand margin. The preliminary pages of the project report (such as Title page, Acknowledgement, Table of Contents etc.) should be numbered in lower case Roman numerals. The title page will be numbered as (i) but this should not be typed. The page immediately following the title page shall be numbered (ii) and it should appear at the top right hand corner as already specified. Pages of main text, starting with Chapter 1 should be consecutively numbered using Arabic numerals.

8.2 Numbering of Chapters, Divisions and Sub-Divisions

The numbering of chapters, divisions and sub-divisions should be done using Arabic numerals only and further decimal notation should be used for numbering the divisions and sub-divisions within a chapter. For example, division / sub-division 4 under division 3 belonging to chapter 2 should be numbered as 2.3.4. The title for the division/sub-division shall start at 20mm from the left margin, following the number assigned to it.

Every chapter beginning with the first chapter should be serially numbered using Arabic numerals. Appendices included should also be numbered in an identical manner starting with Appendix 1.

8.3 Numbering of Tables and Figures

Tables and Figures appearing anywhere in the project report should bear appropriate numbers. The rule for assigning such numbers is illustrated through an example. Thus, if a figure in Chapter 3, happens to be the fourth then assign 3.4 to that figure. Identical rules apply for tables except that the word Figure is replaced by the word Table. If figures (or tables) appear in appendices then figure 3 in Appendix 2 will be designated as Figure A 2.3. If a table to be continued into the next page this may be done, but no line should be drawn underneath an unfinished table. A table continued into the next page should have a caption like, Table 2.1 (continued), placed centrally and underlined.

8.4 Numbering of Equations

Equations appearing in each Chapter or Appendix should be numbered serially, the numbering shall commence freshly for each Chapter or Appendix. Thus for example, an equation appearing in Chapter 2, if it happens to be the eighth equation in that Chapter should be numbered (2.8), while referring to this equation in the body of the project report it should be referred to as Equation (2.8).
